ALPINION MEDICAL SYSTEMS

ALPINION MEDICAL SYSTEMS was established in 2007 as a true value innovator in the medical imaging industry. Based on its proprietary core acoustic technologies, ALPINION sets up the value innovative diagnostic imaging portfolio (E-CUBE series), the advanced ultrasound research system, and the therapeutic ultrasound portfolio. From acoustic to therapeutic, ALPINON exerts every effort to deliver the most reliable, uniform and fundamentally excellent medical imaging performance to customers.

ALPINION’s value innovative HIFU portfolio encompasses the clinical HIFU system for uterine fibroids treatment (ALPIUS 900) and pre-clinical HIFU system for animal research (VIFU 2000, WET / DRY type).

ALPINION’s sole shareholder, ILJIN was established in 1967 and is a global manufacturer and supplier with a turnover of USD 2.5 billion (FY 2012) and 5,300 employees globally. ILJIN holds 14 affiliates and has business fields of display, smartphone touch screens and heavy electrical equipment, industrial diamonds, steel pipes and cables, and medical device.

The E-CUBE 7 delivers **compact and powerful image performance** for a fast and confident clinical decision, a **smart-software package** for multiple applications, and **design ergonomics** to maximize space efficiency and mobility.

Embedded with ALPINION’s core imaging technology and imaging platform, the E-CUBE 7 provides clinicians excellent 2D, color flow, CW/PW Doppler performance. The high-quality transducers of the E-CUBE 7, designed and developed by ALPINION, enhance the imaging performance of the E-CUBE 7.

The E-CUBE 7 is the only system in its class that provides high featured transducers like single crystal convex and phased array. The smart and intuitive application software and features of the E-CUBE 7 empower clinicians to make diagnostic decisions with confidence.

**Powerful Image Performance**

ALPINION’s proprietary acoustic technologies generate refined signals that perfectly match impedance with the system.

The E-CUBE 7’s advanced transducer portfolio is enhanced by acoustic technologies such as Crystal Signature™, ALPINION’s unique single crystal technology. ALPINION’s core imaging technologies process and refine signals under a flexible and reliable FleXcan™ Architecture imaging platform that guarantees uniform image quality.

Sophisticated post-processing imaging technology set, Optimal Imaging Suite™ provides high-quality image performance.

**Transducer**

ALPINION’s acoustic technology combined transducer set

- **Crystal Signature™**
  ALPINION’s unique single crystal technology

- **SensitView™**
  ALPINION’s integrated acoustic technology for high resolution images

- **MicroFit™**
  ALPINION’s ergonomic design technology for excellent grip and lightweight transducers

**System Hardware**

- **FleXcan™ Architecture**
  ALPINION’s innovative flexible software driven imaging platform for system stability and easy upgrades with minimum hardware changes

- **Connectivity**
  DICOM 3.0 standard, MPPS and Modality work list

- **Excellent storage capability**
  Optimal storage formats (USB, CD/DVD and network storage connections)

**Software**

- **Optimal Imaging Suite™**
  ALPINION’s core imaging technology set (SCI, FTHI, FCI, SRI and FullSR™)

- **Volume Master™**
  ALPINION’s lucrative 3D/4D engine for routine OB/GYN exams

- **Live HQ™**
  One touch auto optimization for 2D, Color and Doppler

- **Needle Vision™**
  Auto IMT

- **Stress Echo**
  Auto trace PW, CW

- **Anatomical M-mode**
  Tissue Doppler Imaging
Optimized Solutions for Multiple Applications

The smart software and features empower clinicians to make diagnostic decision with confidence. The E-CUBE 7’s excellent image quality and fast workflow enhance diagnostic efficiency and productivity through the applications. The E-CUBE 7 is the All-in-One Solution you need.

General Imaging
- High resolution abdominal images from a single crystal convex transducer
- Excellent Color/Doppler image performance
- Xspeed™, One touch optimization for 2D, Color and Doppler
- Auto trace PW, CW
- Auto IMT

Cardiology
- High-performance Stress Echo and TDI for cardiac exams
- Single crystal transducers with deep penetration and high sensitivity (SP2-5, SP3-8)
- Pencil transducers for cardiac and vascular exams (CW2.0, CW5.0)
- Excellent CW, PW Doppler performance
- Full measurement echo package and CV tool

Musculoskeletal
- High-performance linear transducer set (L5-3, L5-12, L5-12H, L5-12HWD, L8-17)
- Excellent linear image performance for accurate FNA procedure and needle injection

OB/GYN
- Volume Master™, ALPINION’s lucrative 3D/4D engine for routine OB/GYN exams
- Application dedicated software and single crystal transducer (SC1-6)
- 60 mm wide linear transducer for breast exam (L5-12HWD)

Image Gallery

- Stress Echo
- Carotid Auto IMT
- Supraspinatus
- Needle Vision™
- Pancreas
- Gestational sac and Yolk sac
- Umbilical Cord
- Live HQ™
Compact & Optimal Space Solutions

The E-CUBE 7’s lightweight and slim design provides the best fit for small spaces and excellent mobility. The design ergonomics maximize space efficiency and mobility for routine daily practices.

Slim Design with Efficient Workflow

The E-CUBE 7 is designed for user convenience and efficient space utilization that provides excellent mobility and portability. The E-CUBE 7 enables rapid diagnosis through highly efficient automatic features that simplify the workflow process.

- **Dimension:** 1,425(tall) / 1,355(short) X 509 X 670 mm (H x W x D)
- **Weight:** 57 kg

High Quality Transducers

ALPINION’s uniform and fundamentally excellent image performance is the result of an unique and proprietary acoustic technology. The E-CUBE 7’s high quality transducers provide clinicians with high definition image, excellent grip, easy contact and reliable performance.

### Linear

- **L8-17:** Wide-linear array (60mm)
- **L3-12H**
- **L3-12H**
- **L3-12**
- **L3-8**

### Convex

- **SC1-6:** Single crystal convex array
- **C1-6:** Convex array
- **C5-BN:** Micro-convex array
- **VC1-6:** Volume convex array

### Phased Array

- **SP1-5:** Single crystal phased array
- **SP3-8:** Single crystal phased array
- **EC3-10:** Wide band endocavity
- **EV3-10:** Wide band endocavity

### Endocavity

- **EC3-10:** Wide band endocavity

### Pencil Type

- **CW 2.0:** Application: Vascular, Cardiac
- **CW 5.0:** Application: Vascular, Cardiac

Developed and Manufactured by ALPINION

- **Fast Repair**
- **Low Maintenance Cost**
- **Best Compatibility**

※ Certain transducers may not be available for use in some countries.
